

Fiduciary Duty

Presented by
Jane Nelson

Fiduciary Duty Defined:

- Fiduciary---Person, company or association holding assets in TRUST for a beneficiary
- Duty---legal obligation of a fiduciary or other person in a responsible position
- Fiduciary is charged with the responsibility of handling money or property wisely for the beneficiary

Examples of fiduciaries:

Executor	People who manage
Receivers	IRA accounts,
Trustees	401K programs

{ 2 }

Fiduciary Duty

Beneficiary is the person who receives or is to receive the benefits from certain acts.

Changed DOL Rule (Fiduciary Standard)

- in the U.S.
- as of April 2017
- targets retirement accounts specifically
- brokers/agents/managers of IRAs, 401Ks

{ 3 }

Fiduciary Duty

What it was before:

---must be "suitable" for the client

What will it be:

Must manage accounts for the benefit of the beneficiary

{ 4 }

Fiduciary Duty

DOL announced Spring/16, in effect 4/17

Changes being announced:

Edward Jones--Modifying their commission-based IRA platform, which will now exclude MFs and ETFs

Merrill Lynch—change from commission to fee-based

{ 5 }

Fiduciary Duty

BlackRock — cutting fees of 15 of its ETFs

LPL Financial — considering sale of firm

Smaller lineup of funds

Altering long held pricing structures

Restructure business model

Focus on passive product

{ 6 }

Fiduciary Duty

Investor choices:

Fee-based accounts

Online brokerage

--cheaper fee-based

--self-directed account

--roboadvisor

Broker view of fee-based:

--predictable, steady income

--as much as 60% more revenue

{ 7 }

Fiduciary Duty

- What caused of the change?
 - Conflict of interest caused \$17B loss in families retirement funds
 - Annual returns on retirement funds down 1%

{ 8 }

Fiduciary Duty

Department of Labor (DOL) Rule also introduces the language
“reasonable compensation”

T Rowe Price Group Inc. (TROW)

Business Summary:

- Provides asset management services for individual and institutional investors.
- Offers a broad range of no-load U.S. and international stock, hybrid, bond, and money market funds.
- Approximately two-thirds of the firm's managed assets are held in retirement accounts and variable annuity investment portfolios.
- Manages private accounts, provides retirement planning advice, and offers discount brokerage and trust services.

13

TROW

- AUM = \$776.6 B at June 2016
- Equity and blended asset portfolios = 78% total funds under investment
- Fixed income portfolios = 22% total fund under investment
- Investment advisory fees = 88% revenues
- Target date funds = \$65 B in inflows last 5 yrs.

14

Industry

Industry Summary:

- Tepid economic activity around the world
 - to the strong U.S. dollar
 - weak average oil prices
 - lower-than-normal spending across borders
 - lower AUM often because of the shift to passive investments.
 - little growth in invested funds so profits are under pressure.

15

TROW

Strengths:

- Retirement accounts and variable annuities are 2/3 of investment portfolio
- Strong fund portfolio beating peers @3-5-10 yrs. = higher non-operating income
- Target date funds provide significant organic growth
- A well-respected brand
- High switching costs

16

TROW

Weaknesses:

- Only 62 % of mutual funds beating peers
- Outflows to passive funds
- Fees based on AUM levels pulls revenues down
- Operating performance lower lately
- Product mix not overly diverse

{ 17 }

TROW

Opportunities:

- New accounting guidelines that affect certain sponsored investment portfolios
- Technology initiatives that should help address client needs
- Millennials are just beginning buying TDFs
- Repurchases of common shares
- Products with significantly higher switching costs
- Expanded non-U.S. presence

{ 18 }

TROW

Threats:

- Continued outflow to passive funds
- Continued sluggish economic conditions
- New fiduciary duty rule
- Baby boomers are about to begin cashing in
